

Council for Labor and Economic Growth  
Tackling Major Workforce Issues Facing Key Industry Sectors Committee  
Meeting Notes  
Monday, June 5, 2006  
Focus: HOPE, Detroit, Michigan

Reports on Subcommittee Work:

1. Healthcare – Norma Hagenow

1<sup>st</sup> meeting – brought group together to discuss what is changing

2<sup>nd</sup> meeting

Impact on Human capital

Home care

Demographics

How to deliver care

Person centered

Consumerism

Education – need to work together in teams – no more silos

Developed recommendation for Governor (see notes from subcommittee)

Developed a Graphic – Patient centered (person centered)

Currently employed in healthcare system need to change, prepare for new careers in healthcare. Some jobs going away – new ones on the horizon

Demographics – customer base increasing

Workforce decreasing

Question was raised: What impact does health care coverage have on choices people make i.e. career choices - may want to delve into this a little further at a later date

Observation: Only HMO puts dollars into wellness, rest put into procedures

Discussion:

Could Michigan be a model state, like Massachusetts's on healthcare?

How much is the system driven by doctors?

Trend in insurance – shift risk to consumer

How do you change behaviors?

2. Advance manufacturing

Will be doing a presentation to full council today

Excellent meeting – education was the topic

Build a culture

There is going to be manufacturing in the future

3. Next industry to map

Committee decided Alternate Energy would be the next industry

Possible resources: WIRED – Mid-Michigan – Alternative Energy is one of their areas of concentration – Saginaw Valley; Kettering Institute; MSU
